WHAT IS HEALTH?

The healthy body keeps itself in perfect balance thanks in part to its built-in self-repair mechanism. A part of the natural healing process is "feeling sick." When we are injured, under stress or come in harms way, our body warns us by giving us "symptoms of sickness."

MY BODY HAS A "WARNING LIGHT"?

Feeling sick can be compared to the oil light on a car engine. When the light is on, we know the engine needs to be serviced. Most conventional medical treatment aims at removing that warning light, I mean, your symptoms! But suppressing those warning signs of illness does not heal the underlying disorder - it merely removes the warning light!

What happens when you disable to warning light? The engine runs out of oil and is damaged forever! What happens when you are medicated? Your condition actually gets worse. And you may develop additional complications, or side effects, from the medication.

I HAVE ANOTHER OPTION?

There is another way of treatment that uses your symptoms to boost your natural healing process – it's called homeopathy. Each dose of a homeopathic remedy strengthens the body's self repair mechanisms. Over time, homeopathic treatment can remove the underlying disorder. Homeopathic treatment is a safe & effective way to remove sickness & restore health – without disabling those warning lights and without those unwanted & damaging side effects!

WHAT IS THE MUELLER METHOD™?

Over more than thirty years of clinical observation and experimentation, Mr. Mueller developed what is now called The Mueller Method™ - a comprehensive homeopathic approach that is known to be more effective than most common homeopathic practices. Manfred and Christina are both experts in this method. The Mueller Method™ involves:

- Taking daily doses of your remedies to cover all your symptoms, rather than just taking a single dose, watching & waiting for a response
- Using "as needed" remedies to cover acute flares ups of chronic problems (i.e. migraines, PMS, gallstones, gout, pain, etc.), helping you avoid suppressive medications & accelerate your healing process
- Identifying & helping remove the primary causes of disease including dietary causes, lifestyle factors, mercury amalgam fillings, cosmetics, unnecessary medications & more
- Using special homeopathic protocols to remove drug disorders & other silent, long-term obstacles to cure
- Identifying preexisting weakness & susceptibilities in the your health; addressing them at the cellular level
- Heavy metal detoxification (chelation) program done by gentle, oral methods
- And much more...

CHIEF COMPLAINT QUESTIONNAIRE

Give the following information for your main complaint(s). You may wish to use a separate sheet of paper:

1. Complaint [name the ailment(s) and describe your symptoms in your own words].
2. When did you first have this/these complaint(s)?
3. Did you consult a health professional? Who and what is their specialty?
4. What, if any, diagnosis was made? What diagnostic tests were performed, where and when? (You may wish to provide medical records of the event)
5. What treatment/medication was recommended and/or used for this condition and when? (you can include this information in question #7)
6. Please attach recent photographs of yourself or the person having consultations. It would to have pictures that show changes before and after the chief complaint(s) began, e.g. pictures from the past few months, and pictures from last year and several years past. If you have videos you would like to share, this would be helpful as well. You can burn them to a CD and mail them to us, or if you prefer you can post them somewhere online and send us a link to view them.
7. In reverse chronological order, please list all treatments, medications, shots, surgeries, hospitalizations, etc., you received for this complaint, with approximate date, and duration. In addition, please list by date of last use, all medications you have taken in the past including prescription, over-the-counter, herbs, environmental exposures like pesticides, paints, or other toxic substances including hair dyes, microwaves, cordless/cellular phones, sulphur in your water, etc.; please list the duration and approximate time period used. Specific dates don't matter. Do the best you can. You may wish to look at medical records, pharmacy records, hospital records, military records, etc.

We will be happy to help you work on this! This is the most time consuming step, but it is important. Do not let this keep you from scheduling your initial consultation. You can work on this list as you go beginning with the most recent drugs/procedures/etc. first.
